

Do you qualify for our services?

To receive home health care you must be homebound. Homebound means the following:

- ◆ Difficulty leaving home.
- ◆ Your condition keeps you from leaving home without help (such as using a wheelchair or walker, needing special transportation, or getting help from another person).
- ◆ Leaving home takes a considerable and taxing effort.
- ◆ Leaving home for medical treatment or short, infrequent absences for non-medical reasons, such as attending religious services.
- ◆ You can still get home health care if you attend adult day care. You must receive home health care services in your home.

Why choose Quality Home Health Care?

- ◆ At Quality Home Health Care all the caregivers are Experienced & Licensed.
- ◆ We hire friendly and helpful staff that are trained caregivers.
- ◆ Home health care is usually less expensive, more convenient, and just as effective as care you get in a hospital or skilled nursing facility. In general, the goal of home health care is to provide treatment for an illness or injury. Home health care helps you get better, regain your independence, and become as self-sufficient as possible in the comfort of your home.
- ◆ From medical check-ups to rehabilitation therapies, QHHC offers the most comprehensive range of licensed home care services in Missouri.

- ◆ Our skilled staff with varying specialties can help to prevent re-hospitalization.
- ◆ Care can include psychiatric care, physical therapy, medication management, wound care, as well as additional services provided by registered nurses. This type of home care is appropriate for those suffering from chronic illness, recovering from an acute injury or illness, that may need skilled care to stay at home.
- ◆ We are dedicated to providing you with the most up to date information for your recovery.
